

VISION

ROAD TRIP
MARK 1:4-8
April 09, 2017 • Ron King

Why is SOARING like an eagle such a good way for us to travel?

Jesus is immeasurably GREATER than you.

Jesus prioritized His time with a heavenly AGENDA.

Jesus saw morality through the lens of LOVE.

Jesus saw events, material things, and people through the telescope of ETERNITY.

DIGGING DEEPER

1. Why is a vision change an essential part of following Jesus?
2. In Mark 1:4-8 what was the core of John's message? How was that message intended to change people's perception?
3. How does the knowledge of the greatness of God combined with our own limitations change the way we look at life? (be as specific as possible)
4. How does your vision get messed up?
5. What influenced the way Jesus spent His time?
6. What are the priorities that shape your schedule this week? Why do they drive your schedule?
7. Why did Jesus consistently challenge the religious leaders of His day to change their perspective? What did He want them to focus on?
8. How does seeing your world through the lens of love change how you view the people at work/school/your neighborhood.
9. How does having eternity in view affect the way you see current events? How does looking at a person with eternity in mind, alter your perspective?
10. How could you help another follower of Jesus develop godly vision?

TAKING IT HOME

Challenge yourself this week to help another believer expand their vision. Consider walking through one of the gospels with them and asking each other how Jesus' vision was unique.
